

Wooden Boards

SMITH & HUBBLE

smith & hubble

Smith & Hubble Wooden Boards are used widely in restaurants, bars and in the home. They are used as a cutting board, cheese / charcuterie, meal presentation and much more. Our boards are produced out of one solid piece of wood. Every Smith & Hubble Wooden Board is unique and 'free-form' in shape. They are hand-crafted and come in five different sizes.

Smith and Hubble wooden boards are produced from the sustainable wood, Camphor Laurel in one of the world's most prominent organic regions – The Sunshine Coast, Queensland Australia

Some of the other benefits of Smith & Hubble Wooden Boards

- Tight grains and natural coloration make it a highly attractive timber to use for boards, both for aesthetic and durability purposes.
- The natural oils in this tropical wood allow it to repel moisture, warping and microbes
- Camphor Laurel is naturally and permanently anti bacterial timber
- Camphor Laurel wood is extremely easy on knife blades and other cutting implements

Large Board – 450 x 300mm

Medium Board – 420 x 280mm

Small Board – 400 x 250mm

Long Board – 500 x 80mm

As Smith & Hubble boards are hand crafted out of different shaped slabs, sizes and shapes will vary

Smith & Hubble Banquet Board
